

§ 159C-10. Location of projects.

Except as provided in this section, any project or projects of an authority shall be located within the boundaries of the county for which the authority was created. A portion or portions of any project including, but not limited to, any real or personal property or improvements necessary or convenient for the construction, maintenance, and operation of the project, may be located in a county or counties other than the county in which the principal part of the project is located so long as the additional portion or portions constitute functionally appurtenant or incidental facilities and the governing body of each other county in which the additional portion or portions of the project is or are located approves the project. In addition, if a project or a group of related projects is located in two or more adjacent counties, the authority created for any one of the counties may issue bonds as provided in G.S. 159C-6 for the purpose of paying all or any part of the cost of the project or group of related projects if the following conditions are met:

- (1) The board of commissioners of each county in which the project or group of related projects is located has consented.
- (2) The governing body of the authority created for each county in which the project or group of related projects is located has consented.
- (3) The bonds are issued in compliance with all other provisions of this Chapter. (1975, c. 800, s. 1; 1993, c. 130, s. 1; 1997-463, s. 3.)
